MOCHI VIDHI

Frontend Developer (React.js) · Data Analyst · Python & Automation Enthusiast

vidhimochi0310@gmail.com | +91 9313198684 | S u r a t , Gujarat, India | github.com/mochi-vidhi

PROFESSIONAL SUMMARY

Versatile technologist with combined expertise in Frontend Development and Data Analysis. Experienced in building responsive, scalable web applications using React.js, JavaScript, Redux, and REST APIs, alongside strong skills in Python, SQL, and data-driven problem solving. Skilled in developing ERP and HRMS systems, full-stack web applications, and automated data pipelines, with hands-on experience in exploratory data analysis, dashboarding (Power BI, Excel), and translating raw data into actionable business insights. Proven ability to deliver clean, well-documented, and production-ready solutions across both engineering and analytics domains.

EDUCATION

B.Tech in Information Technology May 2026

Madhuben and Bhanubhai Patel Institute of Technology, Anand, Gujarat | GPA: 9.1 / 10.0

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, C, C++

Frontend Development: React.js, Redux, HTML, CSS, Bootstrap, Responsive Web Design

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)

Visualization & BI: Power BI, Excel (PivotTables, Charts, DAX)

Databases: SQL, MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Jupyter Notebook, Web Scraping (Selenium, BeautifulSoup)

WORK EXPERIENCE

Frontend Developer — Employees Clock Jun 2026 – Present (Part-Time)

Remote · Canada · dev.employeesclock.com — Employee management & attendance tracking platform.

- Building and maintaining frontend features for a cloud-based employee management and attendance system, including clock in/out, leave approvals, payroll management, and dashboards.
- Integrating REST APIs to automate HR operations and ensure real-time data flow between frontend and backend services.
- Collaborating remotely with an international team to deliver responsive, user-friendly interfaces using React.js and modern frontend practices.

Associate React.js Developer — Bizcompass Software Pvt. Ltd. Jan 2026 – Jun 2026 (Internship)

Surat, Gujarat · All-in-one HRMS and business process automation platform offering HR, payroll, attendance, project management, CRM, and workflow modules.

- Developed and maintained responsive, scalable, and reusable frontend components using React.js, JavaScript, Redux, HTML, CSS, Bootstrap, and REST API integration.
- Worked on multiple business application modules including HRMS, employee management, recruitment, onboarding, attendance tracking, leave management, payroll, and dashboard features.
- Integrated REST APIs to connect frontend applications with backend services and ensure smooth data flow.
- Collaborated with UI/UX designers and backend developers to deliver user-friendly, high-performance web applications.
- Debugged frontend issues, optimized application performance, and participated in code reviews, testing, and production deployment support.

PROJECTS

Super Store Dashboard

Power BI · Data Modeling · DAX · Business Intelligence

- Designed an interactive Power BI dashboard analyzing retail store sales, profit, and order data to surface trends across regions, categories, and customer segments.

- Built data models and DAX measures to track key performance indicators such as total sales, profit margin, and order volume.
- Created dynamic visualizations (charts, filters, and slicers) enabling stakeholders to drill down into performance by region, product category, and time period.

E-Learning Platform

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack e-learning web application with role-based authentication (faculty & student) using JWT (JSON Web Tokens).
- Enabled faculty to schedule, edit, and manage lectures through a user-friendly interface.
- Allowed students to view and access scheduled lectures in real time.

VOLUNTEER EXPERIENCE

Frontend Development Tutor — Prelytix Private Limited Voluntary

Vallabh Vidyanagar, Anand, Gujarat

- Delivered hands-on training in HTML, CSS, JavaScript, Bootstrap, React.js, responsive web design, and API integration.
- Mentored students through practical coding sessions, real-world projects, debugging support, and interview preparation.
- Designed project-based learning exercises and guided learners in building responsive web applications using industry-standard practices.

CERTIFICATIONS & ACHIEVEMENTS

- Viksit Bharat Young Leaders and Dialogue (VBYLD) 2026
- Problem Solving (Basics) — HackerRank
- 2nd Place Winner – CodeManthan 2.0 Hackathon | Anand Institute of Management & Information Science, Gujarat
