SUMMARY

UI/UX Designer with hands-on experience designing mobile and web products across fintech, verification, and service platforms. Skilled in creating user flows, wireframes, high-fidelity interfaces, prototypes, and scalable design systems using Figma. Focused on creating simple, intuitive experiences for complex product workflows.

WORK EXPERIENCE

Moonbyte

Junior UI/UX Designer | Vadodara **Feb 2026 – Present**

- Design end-to-end mobile and web experiences from user flows and wireframes to high-fidelity prototypes.
- Build reusable components, variants, and design systems in Figma to maintain consistency across products.
- Design fintech and service-based products involving dashboards, transactions, product discovery, verification, and sales flows.
- Collaborate on product requirements and improve interfaces through continuous design iterations.

UI/UX Design Intern | Vadodara **Dec 2025 – Feb 2026**

- Designed mobile screens, user flows, reusable components, and interactive prototypes in Figma.
- Applied Auto Layout, responsive layouts, typography, spacing, components, and visual hierarchy to real-world projects.

PROJECTS

1. **Upgrow | Financial Services Platform :**
   - Designed a fintech platform for discovering, comparing, and selling financial products, including product listings, comparison flows, sales dashboards, earnings, and service discovery.
2. **Peont | Fintech Service Distribution Platform :**
   - Designed a sales-focused fintech experience covering financial service discovery, dashboards, transaction flows, and retailer-focused interfaces.
3. **Zumigo | Pet Care Platform :**
   - Designed mobile experiences connecting pet parents with vets, groomers, and other pet-care providers, including onboarding, service discovery, booking, and profile flows.
4. **Authenticate India | Business Verification Platform :**
   - Designed business verification experiences covering Aadhaar, PAN, GST, Udyam/MSME, and bank verification with dashboards, status states, and verification flows.
